

I just thought I would flick everyone at NABBA a quick message thanking you for the opportunity I had to compete at the NAC Universes! I had such a wonderful time with the whole team and met some really great like-minded people! The competition itself was such an eye opener! There is so much more out there and I hope to compete internationally again! I loved it! Thanks to each and every one of you that do all the back ground work, it doesn't go unnoticed! Again that you for such a great opportunity and a wonderful life experience!
